

## **\$10 or less for a 90-day supply of more than 400 generics\***

Through your mail-order prescription drug benefit, you have access to more than 400 generic drugs, at the low cost of \$10 or less for up to a 90-day supply.<sup>†</sup> Plus you'll get:

- **Access** to pharmacists who are specially trained in medications used to treat a specific condition, such as high blood pressure, high cholesterol, depression, and diabetes
- **Safety checks** that help protect you from potential drug interactions
- **Convenient delivery** right to you, with **free** standard shipping

Today, many brand-name drugs have generic versions, so it's becoming more common for patients to ask their doctors to prescribe generic drugs to treat their conditions. FDA-approved generic equivalents have the same active ingredients and must meet the same FDA standards for safety, quality, and effectiveness as their brand-name counterparts.

For more information or to find out whether a 90-day supply of your generic drug is available for \$10 or less, visit [www.medco.com/lowcostgenerics](http://www.medco.com/lowcostgenerics) or call us toll-free at **1 877 RxSAVE-NOW (1 877 797-2836)**.

If you don't find your medication, check back from time to time, as this list may change. To find the lowest-cost alternatives for *all* your prescription drugs, visit [www.medco.com/choices](http://www.medco.com/choices).

\* The \$10 price applies to a 90-day supply of each generic drug in the commonly prescribed dosages shown on the program drug list. If your prescription is written for a different days' supply or quantity, your cost may vary. The medications and pricing on the program drug list are subject to change without notice, so visit [www.medco.com/lowcostgenerics](http://www.medco.com/lowcostgenerics) for the latest information.

† If your mail-order co-payment or coinsurance for generics is less than \$10, you'll pay the lower amount. The coverage and pricing of certain medications are also subject to the specific terms of your plan. In certain states, sales tax may be added to the cost of your prescriptions.
